NICO Building TIF Redevelopment Project Plan

Cost Benefit Analysis – from the application

1. **Tax shifts resulting from the approval of the use of funds pursuant to Section 18-2147 (of the Community Development Law):**

   The use of TIF will not result in any tax shifts. The current level of taxes will continue to flow to the current taxing entities, and only the increased value of revenues resulting from the improvements will be applied to the cost of the improvement.

2. **Public infrastructure and community public service needs impacts and local tax impacts arising from projects receiving incentives:**

   We will be doing sidewalk and landscaping improvements along Harvey Street and Turner Blvd.

3. **Impacts on employers and employees of firms locating or expanding within the boundaries of the area of the redevelopment project:**

   The development of this site will provide employment by increasing the demand for personal services and employees to provide these services.

4. **Impacts on employers and employees within the city and the immediate area that are located outside of the boundaries of the area of the redevelopment project:**

   This development will impact other businesses, as there will be an increase in the demand for employees to fill the employment opportunities created by this development. There will also be competition for renters to fill the new residential units being made available. The provision of new housing will increase employment opportunities and other economic opportunities by increasing the demand for goods and services.
