

Key Neighborhood Resources

This section focuses on individuals, organizations, and programs that support and strengthen neighborhoods by providing assistance to individual homeowners, property owners, tenants, or the entire neighborhood. Much of the information presented in this section is 'time sensitive,' meaning that contact information and programs will change through the years. It is important for the neighborhood association to periodically review the contents of this section and provide updates when they are needed.

The number of programs and services in the Omaha area is considerable. As a result, a number of resource guides have been developed to help locate programs by category: housing, medical, financial, employment, legal assistance, etc. Below are links to some of these resource guides.

- **Nebraska 2-1-1 (Comprehensive)**
<http://www4.irissoft.com/IFTWSQL4/uwml/public.aspx>
- **City of Omaha**
Healthy Homes Resource Guide for Programs in Omaha (Housing Rehabilitation).
A copy of the guide follows this page.
